**Attachments:** Coded Public Comments AH - AG.xlsx; Copy of Coded Public Comments RParry (2).xlsx

Amy,

I have attached two spreadsheets that go with the two Ag references I sent you. The one spreadsheet, titled "Copy of Coded Public Comments RParry (2)", pertains to the reference list starting with comment code 55-G. The spreadsheet titled "Coded Public Comments AH AG" goes with the other reference list. The spreadsheet Jenny sent you pertains to Forestry-Pesticides comments only so don't use that one.

We are currently adding to the both the spreadsheets and reference lists but will send the revised spreadsheets and lists to you when we've completed our reviews.

Please let me know if you have any questions.

Alan

**Subject:** RE: List of OR CZARA references

Hi Alan,  
As I mentioned yesterday, we are starting to work through the Ag references you sent. Is there an updated "Coded Comments" spreadsheet that includes all of the comment numbers in the two attachments that you sent? Or will the version that Jenny sent on June 17 cover all of these?

Also, I have copied Jennifer Ferrando, Erin Kress, and Elizabeth Hiser on this message. Please copy them on any communication (especially through July 21) as we are working together on the various pieces and this will ensure nothing slips through the cracks while I am out of town over the next two weeks.

Thanks, Amy

Amy,

Attached are two Ag reference documents. We are still reviewing comment letters and will be sending you more references very soon. These are good lists to start with.

Please let me know if you have any questions.

Thanks, Alan. Even if you could send a partial list, that would be helpful. I just want to keep momentum going.  
Take care, Amy

Amy, with a little luck, I should be able to get a list of Ag references for you tomorrow afternoon. Our review team meets from 11:00 to 1:00 tomorrow. I will let you know how things go.

Alan

**Subject:** List of OR CZARA references

Hi Alan,  
Hope you are doing well! I wanted to touch base to provide a quick status update and check in on timing for the next pieces of the OR CZARA reference support.  
We are busy making progress on the pesticide references based on the list from Jenny and are wrapping up some stragglers for landslides. We will send everyone the latest and greatest information later today (and will note any pending items).

I believe you are the lead for the next two comment topics – agriculture and forestry riparian (our due dates to you are the day before your calls on July 15 and 22, respectively). I was wondering whether you have a draft list of references that you can provide for either or both of these topics so we can get started on our end. Please let me know if this is doable and/or your anticipated timing.

I believe someone mentioned earlier that there were ~800 references. There have not been too many for landslides and pesticides to date, so I assume at some point we will see a big push. I am trying to anticipate when this may happen to ensure staff are available and up to speed so we can respond quickly.  
Thanks, Amy
